May 2013

The highlight of our school year was to listen to a presentation by award winning author and PBS film maker, Dennis Belliveau. He captured the attention of our 3<sup>rd</sup> through 8<sup>th</sup> grade students like no other assembly in our school's 57 year history. Our students were mesmerized by the account of his retracing the steps of Marco Polo's travels.

He later presented a special program to our 3<sup>rd</sup> grade and gave each one a silkworm cocoon which fascinated their young minds. They were filled with questions and wonder.

One of our 6<sup>th</sup> graders said that she never cared for history but now she has a new appreciation for it and eager to learn more. An 8<sup>th</sup> grade boy said he would love to travel and do more exploring in the world. Our faculty was equally impressed with the wealth of information Mr. Belliveau shared as well as his eloquent delivery and descriptions.

We are grateful to have had this opportunity to share with our students this amazing teacher, author, film maker and world traveler.

Mrs. Rosalie Fegan

A handwritten signature in blue ink that reads "Mrs. Rosalie Fegan". The signature is written in a cursive style.

Principal

A handwritten note in blue ink that reads "many thanks for an amazing day with our students!". The note is written in a cursive style.
